

Custom Font Manipulation

Control what you see vs what you copy

Your Custom Manipulation

SETTINGS:

- Visual word: hello
- Hidden word: world

Test Instructions:

1. Look at the RED word below
2. It LOOKS like: hello
3. Copy the RED word
4. Paste into a text editor
5. You should see: boxes/garbage (PUA characters)

Normal text: hello

Manipulated: hello

Normal text: hello

Character Mapping:

Visual	Hidden	PUA Code
h	w	U+E000
e	o	U+E001
l	r	U+E002
l	l	U+E003
o	d	U+E004

How It Works:

- The font maps Private Use Area (PUA) Unicode characters
- PUA characters display as your chosen visual letters
- When copied, they remain as PUA (shown as boxes)
- Normal text is completely unaffected
